ABOUT US

MfundoPedia (MFP) is a South African information technology company **established in 2016**, with a proven track record of over a decade delivering innovative digital solutions across multiple sectors. We specialise in **custom software development, managed IT services, and data infrastructure**, supporting organisations that seek sustainable digital transformation.

From our headquarters in Johannesburg, we serve a growing portfolio of public and private sector clients—driving efficiency, enhancing security, and enabling long-term growth through technology. At our core, **we believe in delivering practical, scalable, and future-ready IT solutions that adapt as our clients evolve.**

Our commitment to create the future, today.

MISSION & VISION

Our mission is to create first-class experiences by adding tangible value to our clients' businesses by providing innovative, bespoke, tailor-made IT solutions that meet and exceed their business excellence needs.

We live **our vision** every day because our commitment is to create the future, today through people and evolving technologies.

OUR CULTURE & VALUES

We're **built on a high-performance**, inclusive culture grounded in:

DIVERSITY & COLLABORATION

Drawing talent from all walks of life to build strong, versatile teams.

INTEGRITY & OWNERSHIP

Acting with ethical responsibility and transparent communication.

CLIENT CENTRICITY

Continuously evolving to develop smarter solutions that meet real-world needs.

EXCELLENCE & PASSION

Investing in passionate professionals who convert knowledge into lasting value.

SOFTWARE SOLUTIONS

City Development Platform (CDP)

A comprehensive web-based solution that streamlines municipal property value chain workflows. CDP boosts revenue, enhances planning, and automates permitting processes from submission to compliance tracking.

RLT Legal Practice Management

Purpose-built practice management for South African law firms — matters, billing, and Section 78 trust accounting in one compliant system. Covers FICA KYC, court-rule workflows, and billable time tracking. Integrated with LexisNexis, CIPC, the Deeds Office, and DHA.

MFP FinanceCore

South Africa's compliance-first accounting and ERP platform — from a spaza shop on WhatsApp to a municipality, on one codebase. Native SARS, B-BBEE, POPIA, and mSCOA support built in, not bolted on. A free tier and a one-tap funding pack turn everyday bookkeeping into access to capital

HR & Payroll System

Smart HR solutions to streamline your operations, boost engagement, and support your growth. From payroll and onboarding to performance tracking and reporting.

Collections Hub

A purpose-built debt collection and credit management platform for South African collection agencies and lenders — with NCA compliance built in, not patched on. Automates DebiCheck mandate management, Section 129 notices, and dunning workflows across the full collections lifecycle.

Integrated with credit bureaus, omnichannel debtor communications, and e-signature for end-to-end recovery operations.

InsyteBroker

A full-stack insurance broking and policy administration platform for South African financial services providers. Covers policy lifecycle, claims management, DebiCheck premium collections, and FSCA compliance monitoring. Integrated with DHA verification, AML screening, WhatsApp, and USSD out of the box.
